

XCD 3,5/120mm Macro

The **XCD 120mm Macro** is a compact macro lens for the X1D camera featuring close focusing from infinity to an image scale of 1:2 (43 cm distance setting). The optical design and internal focusing system ensures amazing performance at all distance settings. The focal length and high aperture also makes the lens an eminently suitable portrait lens with beautiful bokeh.

All XCD lenses contain a lens shutter delivering shutter speeds from 60 minutes to 1/2000 second. Synchronizing with flash at all speeds, allows full creative freedom when mixing flash and daylight.

The lens shutter also generates very little vibration providing hand-hold shots with perfect sharpness.
